RE: Situation in Ukraine

Our dear clients, partners, and friends,

The eighty-sixth day of the heroic opposition of the Ukrainian people to the Russian military invasion continues. The focus of the enemy is on the Donetsk direction, where he uses aircraft, artillery, and mortars. In Nikopol the situation is calm, only the siren is howling, there is no disruption in the work of urban infrastructure.

At the plant everything is in normal mode. In hot production as always – cutting, drilling, and tapering, all the actual figures are higher than planned. In the Cold Shop, some bays comply with the norms as in pre-war times. We also see positive dynamics in the supply of pipe billets for production. Dneprospetsstal, our main supplier of billets, is gradually launching production, and shortly, we expect to begin reaching stable supply volumes.

As you may have already noticed from my previous letters, we had made a lot of preparations and we have already started offering and order acceptance process. Your continued support is extremely important for us at this stage. Buying tube & pipe from Centravis means you support the restart of Ukrainian economy, which is nowadays as important as never.

Our Logistics team is actively working and constantly looking for the best and safe ways to deliver the finished products. The members of the Board of Directors, namely Yuriy Atanasov, Andrey Krasjuk, Alexandre Joseph, Artem Atanasov, stay in Ukraine and keep working. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open, our Financial and Administrative Departments, Customer support are ready for your calls and messages.

We are also actively preparing to participate in the Tube & Wire exhibition, which will take place in Düsseldorf from 20 to 24 June. Information about the stand number and the hall will be published soon in our official sources - on the website and in social networks. We are looking forward to meeting you at the exhibition, I am pretty sure that meetings this year will be especially warm and productive.

The Centravis team is grateful to each of you for your words of support and admiration. Your letters and calls make us stronger!

I am at your disposal as well, with all your requests for information or inquiries.

Sincerely,

Artem Atanasov
