RE: Centravis production

Our dear clients, partners, and friends,

After almost 200 days of Russian invasion, the Ukrainian people continue to heroically resist while Ukraine's military is retaking some towns in Eastern and Southern parts of the country.

Centravis production also continues to work. The Hot Shop and the Cold Shop continue working in 2 shifts. All key equipment is running. Production is provided with billets and all necessary materials.

The company feels a great support of our partners and clients. At the same time our Production and Logistic teams do their best to produce and deliver orders as soon as possible.

Our Sales offices stay connected with our clients and partners and are always ready to respond to your requests. Our R&D department does a great job consulting our clients in finding best solutions for non-standard inquiries.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol.

I am at your disposal as well, with all your requests for information or inquiries.

Sincerely,

Artem Atanasov
