Our dear clients, partners, and friends,

Ukraine continues to defend freedom and values of democracy. This week russians launched a massive missile attack on our territory, including hitting energy infrastructure facilities. The Air Defence forces shot down most of missiles, but there were problems with electricity in some regions again. The gradual resumption of the energy system after attack continues. Repair teams are working on elimination of the consequences, setting up power supply according to backup schemes.

Centraviv production continues to work in the mode of limited energy supply. We have already finished the overhaul of the press line and next week we are planning to start production at full speed.

Logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are ready to your requests. The Financial and Administrative Departments, Customer support are waiting to your calls.

Production Director Andriy Krasjuk stays in Ukraine and keeps working in Nikopol. Centraviv CEO Yuriy Atanasov is now in Uzhorod, where he supports our team that is working on the launch of a new production.

We remain a powerful team of professional and responsible people. We see, that, despite the difficulties of the war, shelling and other challenges we managed to keep our production running. Also in nearest future we plan to expand it. Thank you for choosing Ukrainian products!
