Ukraine continues to overcome the challenges of this winter. The main issue on the agenda is Soledar, Bakhmut and the fight for the Donetsk direction in general. We receive from partner countries all necessary weapons to defend our territory against Iranian drones and to protect our power sector.

The Hot Shop and the Cold Shop are working, production is provided with necessary materials.

Logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston and Dubai are open and always ready to your requests. The Financial and Administrative Departments, Customer support are waiting to your calls and ready to answer on your questions. We are united and ready for any task.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol.

We are working on launching of a new shop in Uzhgorod, which concentrates equipment for the production of automotive and instrumentation tubes. Also, as we reported earlier, we would like to inform you that at the end of 2022 Swiss Authorities finally issued their permission for Centravis to establish our Top Groups' Holding Company as well as a seat of our Group's Board of Directors, in Lugano, Switzerland. That will allow us to strengthen our stability.
