FROM: Artem Atanasov, Chief Sales Officer, Centravis

Dear clients and partners,

I'm pleased to report that all aspects of our operation at Centravis are working very well. Our production lines, logistics systems, and equipment are all functioning smoothly, and we have a steady supply of all necessary materials. Our team's dedication and concentration guarantee that our Company performs to the high standards. Our global sales offices are operational and ready to assist with any inquiries or support you might need.

Regarding the situation at the Ukrainian-Polish border, our Logistics team has included the Moldovan and Slovakian borders in our routes to prevent any disruptions. As a precautionary measure, we have temporarily adjusted our delivery schedule, adding an additional week to the standard delivery time.

In line with our commitment to operational transparency, this month Bureau Veritas conducted an audit of our facilities.

Their findings confirm the reliability of our production and shipment processes, with no issues identified. For your convenience, two small screenshots from the audit report are below. Should you wish to access the full report, complete with detailed imagery and findings, please feel free to contact me or my colleagues.
