FROM: Artem Atanasov, Chief Sales Officer, Centravis

Our dear clients, partners and friends,

This week Russia has continued shelling of Ukrainian cities. However, this fact just strengthens the determination of the Ukrainians to fight the invaders and liberate the entire territory of our country.

Centravis production continues to work at full capacity. All equipment is running. The Hot and the Cold Shops in Nikopol and production site in Uzhgorod are working.

Our logistics team constantly controls the safest ways to deliver the finished products. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are ready to your requests. The Financial and Administrative Departments, Customer support are also ready to help.

Centravis CEO Yuriy Atanasov and Production Director Andriy Krasjuk stay in Ukraine and keep working in Nikopol.

During my business trip to Germany, I met with several customers. We discussed tough competition in Europe and further steps to strengthen the position of Centravis, especially in automotive and instrumentation segments. The launch of production in Uzhgorod allows us to increase production volumes, as well as to reduce logistics costs for the products delivery to our customers in Europe. If you need more information about production site in Uzhgorod, do not hesitate to contact our sales managers.

Thank you for choosing our products.

Sincerely,
Artem Atanasov aatanasov@centravis.com
