RE: Situation around Ukraine

Dear customers!

The situation has changed dramatically this night. The Russian troops has invaded some parts of Ukraine and there is shooting on the Russian-Ukrainian border. In Ukraine is emergency status.

Unfortunately, there is no truthful information about what happens in Ukraine, therefore we kindly ask you to be patient and to wait till the situation becomes clear again.

Our production site in Ukraine has no damage, but the mill does not work today – the management took the decision, that all our employees should remain at home with their families, till the situation becomes clear.

We will regularly update you on the situation in Ukraine and in Nikopol.

Thanks for your trust and cooperation, your support is very welcome!

Best regards,

Yuriy Atanasov, CEO
