RE: Situation in Ukraine

Our dear clients, partners, and friends,

As you all know the war in Ukraine is still raging, though our Dnipropetrovsk region and Nikopol City, where our Mill is located, were still quiet.

Although we continue to keep Mill closed during next week **until March 16<sup>th</sup>, 2022**, we decided to involve one shift to try to complete a number of orders we have in both Hot and Cold shops. Also, we will try to go through our Work-in-Progress items in both shops to finish a few orders with limited human resources, one shift only.

Then we will try ship the orders out. I am sure you recognized that situation with logistics in Ukraine currently under severe stress as all roads in Western direction are clogged with heavy traffic due to immigration wave. Trucks' movement across the border is also hindered by the shortage of drivers as all males between 18 and 60 should stay in Ukraine during the wartime. Our logistic department is looking for creative, though sometimes much more expensive, ways to ship your orders. We will update you on the schedule of trucks regularly. Please be patient keeping in mind the situation we are in.

Once again, our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open, our Financial and Administrative Departments, Customer support with all phone numbers you know, are ready for your calls and messages.

I am at your disposal as well, with all your requests for information or sales inquiries.

Sincerely,

Alex Novak, CSO
