RE: Situation in Ukraine

Our dear clients, partners, and friends,

June 10, the 107th day Ukraine opposes full-scale Russian invasion. The Russian military is trying to take control of Severodonetsk in the Luhansk region, there are battles in the Donbass, Russian troops have temporarily occupied part of the Zaporozhye region, Kherson. The situation in Nikopol is under control, sometimes we hear artillery duels, quite loud, but all departments are functioning, and the necessary services are provided.

At production everything in normal mode. The Cold and the Hot Shop are working to fulfill the plans and produce tubes on time. Production continues to receive billets in small batches. First of all, we produce automotive tubes and tubes from heat-resistant steel grades. We're trying to improve our processing procedures for mother tubes to save energy and tools.

Our Logistics team is actively working and constantly looking for the best and safe ways to deliver the finished products. The members of the Board of Directors, namely Yuriy Atanasov, Andrey Krasjuk, Artem Atanasov, stay in Ukraine and keep working. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open, our Financial and Administrative Departments, Customer support are ready for your calls and messages.

Centraviv continues to do good deeds. Centraviv Charity Foundation donated UAH 248 thousand to the Ukrainian Revival Fund to help the orphanage where kids from Mariupol live.

We will never tire of thanking for the support you provide. Glory to the Heroes!

I am at your disposal as well, with all your requests for information or inquiries.

Sincerely,

Artem Atanasov
