RE: Situation in Ukraine

Our dear clients, partners, and friends,

With unspeakable sadness we announce the death of our colleague Roman Senko, who worked at Centravis as pipes and billets cutter on saws. On May 5, he was killed in a rocket attack on the division's position in Donetsk Region. The Company has decided to give financial support to the families of our colleagues who died in the war. We express our sincere condolences to the family of the deceased.

The third month of the war is going on in Ukraine. From the first day of the full-scale Russian invasion, the Ukrainian army has been actively repelling enemy attacks, inflicting heavy losses. As for Nikopol, the situation here is calm, there is no disruption in the work of urban infrastructure.

The Hot Shop works in full force according to 3 shift schedules. This week there are notable successes in the supply of billets. The Cold Shop also works stable. There is excellent news for Centravis and Ukrainian metallurgy - the US Department of Commerce announced the suspension of 232 customs tariffs on Ukrainian steel for a period of one year. Removing these restrictions will allow Centravis to export more to America, thereby supporting the economy of Ukraine.

Our Logistics team is actively working and constantly looking for the best and safe ways to deliver the finished products. The members of the Board of Directors, namely Yuriy Atanasov, Andrey Krasjuk, Alexandre Joseph, Artem Atanasov, stay in Ukraine and keep working. Our Sales offices worldwide in Essen, Milan, Krakow, Lugano, Houston, and Dubai are open, our Financial and Administrative Departments, Customer support are ready for your calls and messages.

Centravis team believes in the Armed Forces of Ukraine! Let's win together! Glory to Ukraine!

I am at your disposal as well, with all your requests for information or inquiries.

Sincerely,

Artem Atanasov
