Dear Clients and Partners,

I would like to provide an update on the current situation at Centravis.

This week, our region faced significant adversities due to a massive drone attack targeting Ukrainian power generation facilities and transmission systems. Despite these disruptions, I am relieved and proud to report that Centravis' production facilities have remained unaffected. Thanks to the proactive measures implemented by our dedicated team of energy engineers, and the unwavering support from the Ukrainian government, including access to a dedicated reserve power line, our operations have continued without interruption. Our commitment to delivering on our promises remains strong, and we continue to produce and ship our products as per schedule.

**Here is a brief status check of Centravis operational stability:**

- **Energy and Water Supply:** Stable, ensuring uninterrupted operations.
- **Equipment Functionality:** All systems are operational without any issues.
- **Team Engagement:** Our team is fully engaged, motivated, and ready to tackle any challenges.
- **Logistics:** Moving goods across borders is smooth, with no delays.
- **Billet Supply and Material Provision:** We are well-stocked and prepared to meet your demands efficiently.

We are grateful for your ongoing support and trust in Centravis. Your partnership is invaluable to us, and we are committed to continuously strengthening our relationship. We look forward to maintaining the high level of service you have come to expect from us.

Best regards,

Artem Atanasov
