RE: Situation around Ukraine

Dear customers, dear colleagues, dear friends!

The situation in Ukraine remains very difficult. The military operation initiated by Putin yesterday and hypocritically called “a protective operation in Donbas” is in reality a full-scale war against Ukraine. Russian troops attack Ukraine from all directions now: from the North - from the territory of Belarus, from the East - Donbas, from the South – Crimea. They believed that Ukraine will welcome Putin’s regime and his attempts to restore the “Soviet Union” in our country. But nobody in Ukraine wants the country to fall back to old ages. Ukraine identifies itself as a European country within European Community sharing European values.

This day will probably become crucial for the fate of our country. Therefore we appeal to you to put all possible influence on your governments and politicians to support Ukraine in this unfair and disgusting war in any thinkable way – through political pressure on Putin, sanctions against his regime, financial, humanitarian and military help to Ukraine. All you can think of and do is of great help. We thank you for your support!

Concerning our mill – the situation in Nikopol remains under control. The production is safe, but idle as all the employees of the mill remain with their families at home. Some of them are called into the regular Ukrainian army now and they are ready to protect our motherland.

On Monday, the 28th of February we will make a new update on the situation in Ukraine.

Thanks for your support!

Best regards,

Yuriy Atanasov, CEO
